

Scotland's Energy Efficiency Programme Pathfinder Pilots

Jack Causley
Heat and Climate Change Analysis
Scottish Government

***Phase 1 – focussed on supporting integrated area based approaches.
Announced September 2016 and due to complete by December 2017.***

Participating Local Authorities

Aberdeen

Aberdeenshire

City of Edinburgh

Fife

Glasgow

Midlothian

Shetland

South Lanarkshire

Stirling

West Lothian

Phase 2 focussed on:

- Building blocks of programme delivery
- Local Heat and Energy Efficiency Strategies
- Heat decarbonisation
- Hard to treat properties
- Sector specific project

15 Local Authorities awarded funding – including 11 Local Heat and Energy Efficiency Strategy

Technical Evaluation

Measuring changes in energy consumption, temperature and humidity. This work is being led by the Energy Saving Trust.

energy
saving
trust

Social Evaluation

Exploring programme design, delivery approaches and experiences of building occupants. This work is being led by the University of Edinburgh.
